AKTABGACHA VA AKTAB TA'LIMI

Pedagogika, psixologiya fanlariga ixtisoslashgan ilmiy jurnal

MAKTABGACHA VA MAKTAB TA'LIMI

Elektron nashr. 612 sahifa,
5-yanvar, 2026-yil.

BOSH MUHARRIR:

Karimova E'zoza Gapijanovna – O'zbekiston Respublikasi Maktabgacha va maktab ta'limi vaziri

BOSH MUHARRIR O'RINBOSARI:

Ibragimova Gulsanam Ne'matovna – Pedagogika fanlari doktori, professor

TAHRIRIYAT KENGASHI A'ZOLARI

Ibragimov X.I. – pedagogika fanlari doktori, akademik
Shoumarov G'.B. – psixologiya fanlari doktori, akademik
Qirg'izboyev A.K. – Tarix fanlari doktori, professor
Jamoldinova O.R. – pedagogika fanlari doktori, professor
Sharipov Sh.S. – pedagogika fanlari doktori, professor
Shermuhhammadov B.Sh. – pedagogika fanlari doktori, professor
Ma'murov B.B. – pedagogika fanlari doktori, professor
Madraximova F.R. – pedagogika fanlari doktori, professor
Kalonov M.B. – iqtisodiyot fanlari doktori, professor
Nabiyev D.X. – iqtisodiyot fanlari doktori, professor
Qo'ldoshev Q. M. – iqtisodiyot fanlari doktori, professor
Ikramxanova F.I. – filologiya fanlari doktori, professor
Ismagilova F.S. – psixologiya fanlari doktori, professor (Rossiya)
Stoyuxina N.Yu. – psixologiya fanlari nomzodi, dotsent (Rossiya)
Magauova A.S. – pedagogika fanlari doktori, professor (Qozog'iston)
Rejep O'zyurek – psixologiya fanlari doktori, professor (Turkiya)
Wookyu Cha – Koreya milliy ta'lim universiteti rektori (Koreya)
Polonnikov A.A. – psixologiya fanlari nomzodi, dotsent (Belarus)
Mizayeva F. O. – Pedagogika fanlari doktori, dotsent
Baybayeva M.X. – pedagogika fanlari doktori, professor
Muxsiyeva A.T. – pedagogika fanlari doktori, professor
Aliyev B. – falsafa fanlari doktori, professor
G'afurov D. O. – falsafa fanlari doktori (Phd)
Shomurodov R.T. – iqtisodiyot fanlari nomzodi (PhD), dotsent
Mirzayeva F. O. – pedagogika fanlari doktori (DSc), dotsent
Jalilova S.X. – psixologiya fanlari nomzodi (PhD), dotsent
Bafayev M.M. – psixologiya fanlari bo'yicha falsafa doktori (PhD), dotsent
Usmonova D.I. – Samarqand iqtisodiyot va servis institute dotsenti
Saifnazarov I. – falsafa fanlari doktori, professor
Nematov Sh.E. – pedagogika fanlari nomzodi (PhD)
Tillashayxova X.A. – psixologiya fanlari nomzodi (PhD), dotsent
Yuldasheva F.I. – pedagogika fanlari bo'yicha falsafa doktori (PhD), dotsent
Doniyorov S. M. – "Yangi O'zbekiston" va "Pravda Vostoka" gazetalarini tahririyati DM bosh muharriri, O'zbekiston Respublikasida xizmat ko'rsatgan jurnalist, filologiya fanlari nomzodi (PhD)
Yuldasheva D.B. – filologiya fanlari bo'yicha falsafa (PhD) doktori, dotsent
Tangriyev A. T. – Toshkent davlat iqtisodiyot universiteti kafedra professori
Ashurov R. R. – psixologiya fanlari bo'yicha falsafa doktori (PhD), dotsent
Panjiyev M. A. – Qashqadaryo viloyati Maktabgacha va maktab ta'limi boshqarmasi boshlig'ining birinchi o'rinbosari
Xudayberganov N. A. – Xorazm Ma'mun akademiyasi Tabiiy fanlar bo'limining katta ilmiy xodimi, biologiya fanlari bo'yicha falsafa doktori (PhD)
Vaxobov Anvar Abdusattor o'g'li – Pedagogika fanlari bo'yicha falsafa doktori, dotsent

Muassis: "Tadbirkor va ishbilarmon" MChJ

Hamkorlarimiz: O'zbekiston Respublikasi Maktabgacha va maktab ta'limi vazirligi, O'zbekiston milliy pedagogika universiteti

EDITOR-IN-CHIEF:

Karimova E'zoza Gapirzhanovna – Minister of Perschool and School Education of the Republic of Uzbekistan

DEPUTY EDITOR-IN-CHIEF:

Ibragimova Gulsanam Ne'matovna – Doctor of Pedagogical Sciences, Professor

EDITORIAL BOARD MEMBERS:

Ibragimov X.I. – Doctor of Pedagogical Sciences, Academician

Shoumarov G. B. – Doctor of Psychological Sciences, Academician

Qirg'izboyev A. K. – Doctor of Historical Sciences, Professor

Jamoldinova O.R. – Doctor of Pedagogical Sciences, Professor

Sharipov Sh.S. – Doctor of Pedagogical Sciences, Professor

Shermuhhammadov B.Sh. – Doctor of Pedagogical Sciences, Professor

Ma'murov B.B. – Doctor of Pedagogical Sciences, Professor

Madraximova F.R. – Doctor of Pedagogical Sciences, Professor

Kalonov M.B. – Doctor of Economic Sciences, Professor

Nabiyev D.X. – Doctor of Economic Sciences, Professor

Koldoshev K. M. – Doctor of Economic Sciences, Professor

Ikramxanova F.I. – Doctor of Philological Sciences, Professor

Ismagilova F.S. – Doctor of Psychological Sciences, Professor (Russia)

Stoyuxina N.Yu. – Candidate of Psychological Sciences (PhD), Associate Professor (Russia)

Magauova A.S. – Doctor of Pedagogical Sciences, Professor (Kazakhstan)

Rejep O'zyurek – Doctor of Psychological Sciences, Professor (Turkey)

Wookyu Cha – President of the National University of Education, Korea (South Korea)

Polonnikov A.A. – Candidate of Psychological Sciences (PhD), Associate Professor (Belarus)

Mizayeva F. O. – Doctor of Pedagogical Sciences, Professor

Baybayeva M.X. – Doctor of Pedagogical Sciences, Professor

Muxsiyeva A.T. – Doctor of Pedagogical Sciences, Professor

Aliyev B. – Doctor of philosophy, professor

Gafurov D. O. – Doctor of Philosophy (PhD)

Shomurodov R.T. – Candidate of Economic Sciences (PhD), Associate Professor

Mirzayeva F. O. – Doctor of Pedagogical Sciences (DSc), Associate Professor

Jalilova S.X. – Candidate of Psychological Sciences (PhD), Associate Professor

Bafayev M.M. – Doctor of Philosophy in Psychological Sciences (PhD), Associate Professor

Usmonova D.I. – Associate Professor, Samarkand Institute of Economics and Service

Saifnazarov I. – Doctor of philosophy, professor

Nematov Sh.E. – Candidate of Pedagogical Sciences (PhD)

Tillashayxova X.A. – Candidate of Psychological Sciences (PhD), Associate Professor

Yuldasheva F.I. – Doctor of Philosophy in Pedagogical Sciences (PhD), Associate Professor

Doniyorov S. M. – Editor-in-Chief of the Editorial Board of the newspapers "Yangi Uzbekiston" and "Pravda Vostoka", Honored Journalist of the Republic of Uzbekistan, Candidate of Philological Sciences (PhD)

Yuldasheva D.B. – Doctor of Philosophy (PhD) in Philological Sciences, Associate Professor

Tangriyev A.T. – is a professor of Tashkent State University of Economics

Ashurov R. R. – Doctor of Philosophy (PhD) in Psychology, Associate Professor

Panjiyev M. A. – First Deputy Head of the Department of Preschool and School Education of the Kashkadarya Region

Khudaiberganov N. A. – Senior Researcher of the Department of Natural Sciences of the Khorezm Mamun

Academy, Doctor of Philosophy (PhD) in Biological Sciences

Vakhobov Anvar Abdusattor oglu – Doctor of Philosophy in Pedagogical Sciences, Associate Professor

“Maktabgacha va maktab ta’limi” jurnali O‘zbekiston Respublikasi Oliy attestatsiya komissiyasining quyidagi qarorlariga asosan pedagogika va psixologiya fanlari bo‘yicha falsafa doktori (PhD) hamda fan doktori (DSc) ilmiy darajasiga talabgorlarning dissertatsiyalaridagi asosiy ilmiy natijalarni chop etish uchun milliy ilmiy nashrlar ro‘yxatiga kiritilgan:

Pedagogika fanlari bo‘yicha: OAK Kengashi tavsiyasi (26.08.2024-y., №11-05-4381/01) asosida:

- Ekspert kengashi (29.10.2024-y., №10)
- Rayosat qarori (31.10.2024-y., №363/5)

Psixologiya fanlari bo‘yicha: Toshkent davlat pedagogika universiteti murojaatiga asosan OAK tavsiyasi (24.04.2025-y., №11-05-2566/01):

- Ekspert kengashi (25.05.2025-y., №10)
- Rayosat qarori (08.05.2025-y., №370/5)

“Maktabgacha va maktab ta’limi”
jurnali

26.09.2023-yildan

MUNDARIJA

Talabalarda tolerantlikni shakllantirish zarurati va samaradorligi.....	28
Bafayev Muxiddin Muxammadovich	
Muhandislik grafikasi bo'yicha raqamli kompetensiyalarni shakllantirishda grafik dasturlardan foydalanish metodikasini yaratish	34
Axmatova Asila Akmaljon qizi	
Investigation on the Efficacy of Pedagogical Approaches in Virtual Learning	37
Burkxonova Zarafuz Qobilovna, Makhmudov Shaxboz Muzzafarovich	
The Role of Input And Interaction in Second Language Acquisition.....	40
Dilorom Poyonova	
Muhandislik yo'nalishida kartografiya fanini integratsiyalashgan holda o'qitish	45
Kazakbayeva Muxabbat Turabayevna	
Incorporation of Moocs Into the Digital Educational Framework for the Development of Professional Speech Culture.....	49
Kudrat-Zoda Kamola Alisherovna	
Pedagogical Strategies for Enhancing Students' Creative Thinking Throughout the Learning Process	52
Makhmudova Ugiyoy Baxtiyarovna	
Kognitiv yondashuv asosida bo'lajak o'qituvchilarning media savodxonligini rivojlantirish	57
Mirzayeva Mayramxon Zaynobiddinovna	
Transformatsion yondashuv asosida bo'lajak o'qituvchilarning sun'iy intellekt savodxonligini rivojlantirish.....	61
Mirzayeva Ziyoda Uktamjonovna	
Maktabgacha yoshdagi bolalarni tanqidiy fikrlashga o'rgatish	65
Qurbonboyeva Gulnoza Mahmud qizi	
An Online Service that Integrates Up-To-Date Content From Well-Known Mooc Platforms	68
Rakhimberdiyev Rustam Abdunasirovich, Abdurahmonova Osiyo Jahongirovna	
The Fourth Phase of Distance Education: Integrated Technologies and Moocs	71
Rahimberdiyev Rustam Abdunasirovich, TaranenkoTatyana Viktorovna	
Gamifikatsiya orqali iqtidorli o'quvchilarning o'quv motivatsiyasini oshirish	74
Rustamova Manzura Mirkamolovna, Xaytbayeva Malika Qobil qizi	
Boshlang'ich ta'lim fanlarini didaktik o'yinlar orqali tushuntirish	77
Rustamova Manzura Mirkamolovna, Shomaxsudova Diyora Dilshod qizi	
O'smirlar orasida alkogolizm, giyohvandlik va toksikomaniya profilaktikasi	80
Sh. F. Mustafayeva	
Educational Physics Experiments: Methods and Didactic Strategies for Developing Critical Thinking in Students	85
Turayev Alimjan Bahriddinovich	
The Problems of Remote Learning Technology and Global Trends in University Education Development.....	88
Tursunov Begzod Sherzodovich, Shukurova Madina	
A Case Study of Humanities Disciplines Using Massive Open Online Courses as a Resource for Blended Learning.....	91
Tursunov Begzod Sherzodovich, Eshkabilov Kodirali Davlatmurovich	
Modern Education and Training Practices for Future Dentists	94
Turumova Marjona Bahodirovna	
Kommunikativ yondashuv asosida nutqiy kompetensiyani shakllantirish.....	98
Tuxtayeva Mehriyo Shavkatovna	

Maktabgacha ta'lim jarayonida mutaxassislik fanlarini o'qitishda zamonaviy pedagogik yondashuvlar: amaliy muammolar va ularning innovatsion yechimlari	102
<i>Xabibulayeva Shaxrizoda O'ktam qizi</i>	
Maktabgacha ta'lim yo'nalishi talabalarda nutq o'stirish darslari orqali Soft Skills ko'nikmalarini rivojlantirishning nazariy pedagogik psixologik asoslari	106
<i>Xoldarova Mubina Qudratbek qizi</i>	
Maktabgacha ta'lim tashkilotlarida rivojlantiruvchi muhit va uning turlari	110
<i>Xolmirzayeva O'g'iloy Murotali qizi</i>	
Развитие компетенций студентов-биологов в изучении языков	114
<i>Абдуллаева Нигора Курбановна</i>	
Формирование интереса и повышение эффективности школьного урока физической культуры	118
<i>Мукимов Олим Эргашевич</i>	
Incorporation of Massive Open Online Courses Into the Higher Education Framework	122
<i>Rakhimberdiyev Rustam Abdunasirovich, Nasrullayev Javlonbek Ta'atjonovich</i>	
Совершенствование инновационной методики социально-педагогической деятельности будущих педагогов в полилингвальной среде с использованием искусственного интеллекта	125
<i>Хужаниязова Гузаль Юдашевна</i>	
Bo'lajak boshlang'ich sinf o'qituvchilarining kreativ faoliyatini xalq og'zaki ijodi asosida rivojlantirish	130
<i>Abduraximova Muxabbat Allayevna</i>	
Boshlang'ich sinf matematika darslarida o'rganiladigan nostandart masalalar	133
<i>Karimova Kunduz Ruzibayevna, Yo'ldosheva Tojigul Ulug'bek qizi</i>	
Video-marketingning iste'molchilar jalb qilinishiga ta'siri: Tiktok va Youtube misolida.....	138
<i>Rustamova Ma'mura Asqar qizi</i>	
Maktabgacha yoshdagi bolalarning kognitiv jarayonlarini diagnostika qilish	141
<i>Shorustamboeva Shahnoza Ulug'bekovna</i>	
The use of Visualization Technology as a New Trend in Teaching the English Language	144
<i>Tursunoy Ortiqova</i>	
Didaktik drama asosida kasbiy kompetensiyalarni shakllantirishda narrativ yondashuvning asosiy tushunchalari tahlili.....	149
<i>Xolbayeva Dildora Azizovna, Sadiyeva Shaxnoza Xusanovna</i>	
Tibbiyot oliy ta'lim muassasalarida biokimyo fanini o'qitishda work-based learning metodikasini qo'llash ..	153
<i>Mamadaliyeva Zarina Raxmat qizi</i>	
Bo'lajak shifokorlarni tibbiy amaliyotga tayyorlash metodikasini takomillashtirish.....	156
<i>Murtazayeva Nasiba Komiljonovna</i>	
Autizm spektri buzilishi bo'lgan bolalar uchun inklyuziv ta'limni tashkil etish	159
<i>Xusnidinova Saodat</i>	
Muloqot madaniyati asosida liderlik fazilatlarini shakllantirishning samarali usullari	163
<i>Djumayeva Dildora Isroilovna</i>	
Integrating Quizlet, Kahoot, and Padlet Into Vocabulary Instruction: An Experimental Study With Undergraduate Philology Students.....	167
<i>Inoyatova Umida Boxadir kizi</i>	
Advantages and Disadvantages of Teaching Students Via Competent Based Approach in Order to Improve Their Listening and Speaking in Finland	171
<i>Abdukhakimova Kamola Akmalovna, Rahmatova Mohijahon Ahmad qizi</i>	
Kimyo ta'limida iqlim o'zgarishlariga oid ilmiy ma'lumotlar asosida qaror qabul qilish kompetensiyasini rivojlantirish	175
<i>Akbarova Saidaxon Rustamovna</i>	
Tibbiyot oliy ta'limida pediatriya talabarlari klinik fikrlashini rivojlantirishda muammoli ta'lim metodlarining roli.....	180
<i>Atadjanova Shaira Xalilovna, Umkulov Muxtorali Islomkulovich</i>	

MUNDARIJA СОДЕРЖАНИЕ CONTENTS	Individual ta'lim muhiti asosida bo'lajak maktabgacha ta'lim tarbiyachilarini kasbiy-metodik tayyorlashni takomillashtirish..... 185 Azamatova Dildora Shuxrat qizi
	Boshlang'ich ta'lim-tarbiya tizimida raqamli ta'limni joriy etishning innovatsion yondashuvlari va samaradorlik omili..... 189 Babayeva Dilnoz Xaydarovna

METHODS FOR ENHANCING ENGLISH SPEAKING SKILLS IN THE CLASSROOM

F. Kh. Eshbojeva

Acting associate professor of the department of language teaching, PhD (Philology)

Mamayusupova Nihola Ulugbek kizi

Angren University, Master's student

Abstract: This article explores effective methods for improving English speaking skills in classroom settings. It examines learner-centered strategies such as communicative tasks, collaborative learning, role-play activities, problem-solving discussions, and the integration of digital tools to create interactive speaking environments. The study highlights how encouraging active participation, providing meaningful speaking opportunities, and fostering a supportive classroom atmosphere contribute to the development of students' fluency, accuracy, and confidence. The findings emphasize the importance of modern pedagogical approaches in enhancing oral communication skills and improving overall learning outcomes.

Key words: English speaking skills; communicative tasks; classroom activities; role-play; collaborative learning; digital tools; fluency; learner participation.

Annotatsiya: Mazkur maqolada ingliz tilida og'zaki nutq ko'nikmalarini sinf sharoitida samarali rivojlantirish usullari yoritilgan. Tadqiqotda kommunikativ topshiriqlar, hamkorlikda o'qitish, rolli o'yinlar, muammoli muhokamalar hamda raqamli vositalarni integratsiya qilish kabi o'quvchi markazli strategiyalar tahlil qilinadi. Faol ishtirokni rag'batlantirish, mazmunli nutqiy vaziyatlarni yaratish va qo'llab-quvvatlovchi sinf muhitini shakllantirish talabalarning ravonligi, aniqligi va o'ziga ishonchini rivojlantirishga xizmat qilishi asoslab beriladi. Natijalar og'zaki muloqot ko'nikmalarini rivojlantirish va umumiy ta'lim samaradorligini oshirishda zamonaviy pedagogik yondashuvlarning muhimligini ko'rsatadi.

Kalit so'zlar: ingliz tilida so'zlashuv ko'nikmalari; kommunikativ topshiriqlar; sinf mashg'ulotlari; rolli o'yinlar; hamkorlikda o'qitish; raqamli vositalar; nutq ravonligi; o'quvchi faolligi.

Аннотация: В статье рассматриваются эффективные методы развития навыков устной речи на английском языке в условиях учебного занятия. Анализируются ориентированные на обучающихся стратегии, такие как коммуникативные задания, совместное обучение, ролевые игры, проблемно-ориентированные обсуждения, а также интеграция цифровых инструментов для создания интерактивной речевой среды. Подчеркивается, что стимулирование активного участия, предоставление значимых речевых возможностей и формирование поддерживающей атмосферы в классе способствуют развитию беглости, точности и уверенности обучающихся. Полученные выводы подтверждают значимость современных педагогических подходов для совершенствования устной коммуникации и повышения общей результативности обучения.

Ключевые слова: навыки устной речи на английском языке; коммуникативные задания; учебные занятия; ролевые игры; совместное обучение; цифровые инструменты; беглость речи; учебная активность.

INTRODUCTION

In an increasingly interconnected world, English has become the primary medium of global communication, serving as the dominant language of international business, diplomacy, science, technology, and education. As a result, the ability to speak English fluently and confidently is widely regarded as one of the most essential competencies for students at all levels of education. Developing strong speaking skills enables learners not only to participate actively in academic and professional settings but also to engage effectively in diverse social contexts. For this reason, enhancing English speaking skills in the classroom has become a central focus of modern language teaching practices and remains a critical subject of research in the field of applied linguistics.

Despite significant improvements in language teaching methods, many learners continue to find speaking the most challenging aspect of language acquisition. Although students may possess substantial knowledge of grammar and vocabulary, they often struggle to apply this knowledge in spontaneous communication. Common barriers include a lack of confidence, fear of making mistakes, limited exposure to authentic speaking situations, insufficient classroom interaction, and low motivation. These obstacles highlight the need for teachers

to adopt effective strategies that foster a supportive learning environment and encourage active participation. Therefore, exploring methods that specifically target the development of speaking skills is essential for improving overall language proficiency^[1]. Over the past decades, the communicative approach has emerged as one of the most influential methodologies in language teaching. This approach emphasizes meaningful communication, real-life interaction, and learner-centered activities, thereby shifting the teacher's role from that of a traditional instructor to a facilitator. Within this framework, students are encouraged to use language as a tool for expressing ideas, negotiating meaning, and solving problems. Techniques such as pair work, group discussions, role-play, debates, and communicative tasks have been widely recognized for their effectiveness in promoting oral fluency and confidence. These methods create opportunities for learners to engage in authentic communication, thereby enhancing their ability to speak naturally and spontaneously.

Another factor that has significantly transformed language teaching is the integration of digital technologies into the classroom. The use of audio-visual resources, language learning applications, interactive platforms, virtual speaking environments, and online communication tools has opened new possibilities for practicing speaking skills. Digital tools not only provide access to authentic accents and diverse speaking models but also allow students to practice independently outside the classroom. Moreover, technology can reduce anxiety by offering a safe space for learners to rehearse and improve their speaking performance at their own pace. However, the successful integration of technology requires thoughtful planning and methodological alignment, underscoring the teacher's role in selecting appropriate resources and designing meaningful activities^[2]. Motivation is another crucial element in the development of speaking skills. Students are more willing to communicate when they feel supported, valued, and encouraged. A positive classroom atmosphere helps reduce anxiety and fear of errors, which are often major obstacles to oral expression. Teachers play a key role in creating an inclusive environment in which learners are motivated to participate without hesitation. Strategies such as providing constructive feedback, recognizing individual progress, and allowing students to choose topics of personal interest can significantly enhance motivation and learner engagement. When students are motivated, they demonstrate a greater willingness to communicate and to take risks in using the language^[3].

In addition, the development of speaking skills requires careful instructional planning. Teachers must consider learners' language levels, needs, and interests when designing lessons. Each speaking activity should have clear objectives, align with the curriculum, and provide opportunities for both guided and unguided practice. Consistency, sequencing, and task relevance play an important role in ensuring meaningful learning. Activities should gradually build on previously acquired skills, reinforce key language structures, and promote continuous improvement. Given these considerations, the topic of enhancing English speaking skills in the classroom remains both relevant and essential. This article aims to explore a range of effective methods that teachers can employ to improve students' oral communication skills. It examines communicative strategies, interactive techniques, collaborative learning activities, role-play, problem-solving tasks, and the role of digital technologies in supporting speaking development. By analyzing these approaches, the article offers valuable insights for teachers, researchers, and practitioners interested in modern language pedagogy^[4]. Ultimately, the ability to speak English confidently and fluently is a vital component of overall language competence. Through the application of innovative, interactive, and learner-centered methods, educators can create dynamic classroom environments that foster meaningful communication and long-term speaking proficiency. This article seeks to emphasize the significance of such methods and to provide a comprehensive overview of practical strategies that can be implemented to enhance English speaking skills across diverse educational contexts.

LITERATURE REVIEW

Research on the development of English-speaking skills consistently emphasizes the importance of implementing instructional methods that promote meaningful communication and active learner engagement. Scholars widely agree that speaking is not merely the reproduction of memorized structures but rather a dynamic process that requires linguistic knowledge, pragmatic competence, and interactional awareness. Consequently, the literature increasingly focuses on identifying techniques that enable learners to express themselves fluently, confidently, and appropriately across diverse communicative situations. A central foundation in this field is the concept of communicative competence, which marked a shift in language teaching from purely structural approaches toward communication-oriented pedagogy. This perspective emphasizes that learners must be able to use language for authentic purposes rather than simply demonstrate grammatical accuracy. Building on this principle, numerous researchers advocate communicative and learner-centered methodologies that provide rich opportunities for interaction. Studies indicate that when students participate in authentic communicative exchanges, they develop greater fluency, more effective conversational strategies, and increased confidence in expressing their ideas^[5].

Communicative Language Teaching (CLT) is among the most extensively discussed approaches in this context. The literature highlights that CLT prioritizes meaningful tasks over isolated drills, enabling learners to use language functionally. Classroom practices such as role-play, information-gap activities, problem-solving tasks, and interviews are frequently identified as effective tools for enhancing oral skills. These techniques require learners to negotiate meaning, formulate ideas spontaneously, and adapt their language to the demands of interaction. Empirical findings suggest that such active involvement improves both fluency and pragmatic awareness. Task-based learning represents another prominent direction in the literature and is often described as a practical extension of communicative methodology. Researchers define tasks as structured activities with clear objectives, during which learners must use English to achieve a specific outcome. This process naturally promotes engagement and sustained communicative output. Studies in this area emphasize that tasks encourage authentic vocabulary use, foster rapid information processing, and require cooperative interaction. Moreover, repeated task performance has been shown to enhance accuracy and increase automaticity in spoken language^[6]. Pair work and group work have also received considerable scholarly attention. Researchers argue that small-group interaction provides learners with significantly more speaking time than teacher-centered instruction. Working collaboratively reduces affective barriers, creates a supportive learning environment, and encourages learners to express themselves with less fear of negative evaluation. Empirical evidence demonstrates that collaborative activities contribute to improved pronunciation, clearer articulation of ideas, and higher participation levels, particularly among reluctant speakers. These approaches are especially effective in multilingual and multicultural classrooms, where diverse perspectives enrich communicative interaction.

Role-play and simulation activities are frequently discussed as effective pedagogical tools for developing speaking skills. The literature explains that role-play allows learners to engage in real-life scenarios—such as ordering food, negotiating, interviewing, or problem-solving—thereby practicing language in meaningful contexts. This approach enhances communicative competence by fostering creativity, spontaneity, and empathy. Additionally, role-play can reduce anxiety by shifting attention from personal expression to the enactment of a role, which often makes learners feel more comfortable speaking^[7]. The integration of digital technologies has emerged as a major theme in recent research. Digital platforms, mobile applications, and audio-visual tools provide learners with exposure to authentic language models and flexible opportunities for practice. Scholars note that technology-enhanced speaking activities, including video storytelling, online discussions, pronunciation applications, and virtual simulations, increase learner motivation and offer immediate feedback. Digital tools also enable students to record and review their speaking performance, monitor progress, and engage in independent practice beyond the classroom. Furthermore, the literature highlights the potential of technology to create multimodal learning environments that enhance engagement and accommodate diverse learning styles^[8]. Motivation and affective factors are consistently identified as critical components in the development of speaking skills. Researchers emphasize that a supportive classroom atmosphere, constructive feedback, and positive teacher–student relationships significantly influence learners' willingness to communicate. Anxiety, shyness, and fear of making mistakes are commonly cited obstacles to oral participation. Accordingly, scholars recommend encouraging risk-taking, acknowledging incremental progress, and fostering an environment in which errors are viewed as natural and valuable aspects of the learning process. Another key theme in the literature concerns the importance of structured and purposeful lesson design. Effective speaking instruction requires a careful balance between fluency-oriented activities and accuracy-focused practice. Researchers advocate the use of scaffolding, whereby teachers gradually increase task complexity while providing appropriate linguistic support. This approach ensures that learners develop both confidence and control in their spoken language use.

Overall, the literature on English speaking instruction provides strong evidence that communicative, interactive, and technology-enhanced approaches significantly improve oral proficiency. These methods not only increase learners' opportunities to speak but also develop essential strategies for real-world communication. Collectively, the reviewed studies underscore that speaking skills are most effectively cultivated in learning environments that prioritize authentic interaction, collaboration, motivation, and thoughtful pedagogical design.

RESEARCH METHODOLOGY

This study is based on a qualitative review of existing scholarly literature on classroom speaking instruction. Key methodological approaches—including communicative techniques, collaborative learning, and technology-enhanced activities—were examined and compared. The analysis focused on identifying shared principles and effective strategies reported across multiple sources. The findings were synthesized to outline practical methods for improving English speaking skills in classroom contexts.

ANALYSIS AND RESULTS

The analysis of the reviewed literature and methodological approaches reveals several key findings regarding the effectiveness of instructional strategies used to enhance English speaking skills in the classroom. The results indicate that speaking development is strongly influenced by the design of the learning environment, the type of classroom interactions, the integration of communicative tasks, and the role of technology in supporting oral practice. Taken together, these factors provide a solid foundation for understanding how teachers can improve students' oral proficiency in an efficient and meaningful manner. The first major result of the analysis is the clear advantage of communicative methodologies over teacher-centered approaches. When students are encouraged to participate actively, express opinions, solve problems, and negotiate meaning, they demonstrate higher levels of fluency and confidence. The shift from traditional lecture-style teaching to student-centered instruction allows learners to use language spontaneously rather than merely repeating memorized structures. Observations reported across multiple studies indicate that communicative tasks such as discussions, debates, role-plays, interviews, and information-gap activities create opportunities for real-time language use, leading to noticeable improvements in conversational abilities. As a result, learners not only speak more frequently but also take greater responsibility for their own communicative performance ^[9].

The second major finding relates to the effectiveness of pair work and group work in promoting active participation. Collaborative learning environments enable students to speak more freely and distribute speaking time more evenly. In many classrooms, teacher-centered interaction patterns limit learners' opportunities to practice oral skills; however, small-group work restructures classroom interaction and ensures that each learner has sufficient space to contribute. The analysis shows that students experience lower levels of anxiety and demonstrate greater willingness to communicate when speaking in smaller groups, particularly in comparison with whole-class discussions. In addition, cooperative activities help learners develop essential communication strategies such as turn-taking, clarification requests, and negotiation of meaning, all of which are integral components of speaking competence. Another significant result concerns the role of role-play and simulation in enhancing speaking performance. These techniques allow students to engage in realistic communicative situations, such as making requests, expressing opinions, conducting transactions, or participating in interviews. Analysis of classroom-based studies shows that role-play increases learners' confidence by shifting attention from their personal identity to the character they portray. This shift reduces fear of making mistakes and encourages creative language use. Students who practice speaking through simulation demonstrate improved fluency, stronger pragmatic awareness, and an enhanced ability to adapt their language to different social roles and communicative contexts.

Table 1: Effective methods for enhancing English speaking skills in the classroom ^[10]

Method	Description	Key Benefits	Classroom Application
Communicative Tasks	Real-life speaking activities such as interviews, discussions, and problem-solving tasks	Improves fluency, encourages spontaneous speech	Small-group discussions, information-gap tasks
Pair & Group Work	Students work in pairs or small teams to complete speaking tasks	Increases speaking time, reduces anxiety	Pair conversation, group presentation
Role-play & Simulation	Students act out real situations and social roles	Builds confidence, enhances pragmatic skills	Dialogue performance, scenario-based tasks
Technology Integration	Use of digital apps, videos, audio tools, and platforms	Boosts motivation, provides authentic input	Video recording, online speaking practice
Teacher Feedback & Support	Constructive feedback and positive reinforcement	Increases confidence, reduces fear of mistakes	Formative feedback, guided correction

Table 1 presents a comparative overview of the most effective methods used to enhance English speaking skills in the classroom. The analysis indicates that each method contributes to oral proficiency in a distinct way and supports different aspects of communicative competence. Communicative tasks, for instance, are identified as essential tools for promoting spontaneous language use and real-life interaction, making them particularly suitable for discussions and problem-solving activities. Pair and group work provide learners with increased opportunities to practice speaking while reducing anxiety, thereby ensuring active participation from all students. Role-play and simulation are especially effective in developing confidence and pragmatic awareness, as they enable learners to rehearse real-world scenarios within a safe and supportive environment. Technology integration emerges as a modern and highly impactful approach, offering authentic input and varied practice opportunities through digital applications and audio-visual tools. In addition, teacher feedback and emotional support are emphasized as critical elements that encourage learners to communicate more freely

and overcome the fear of making mistakes. Overall, the table demonstrates that combining these methods produces a richer, more engaging, and more effective environment for developing speaking skills.

The integration of digital technologies is identified as another significant factor influencing speaking development. The findings show that learners benefit from digital environments because they provide instant feedback, access to authentic listening materials, and opportunities for repeated practice. Tools such as video recording, mobile applications, digital storytelling, and online speaking platforms offer flexible learning experiences that extend beyond the classroom. The analysis further indicates that technology enhances motivation by making speaking activities more engaging and interactive. Learners who practice speaking through digital tools demonstrate improvements in pronunciation, speech rate, and overall confidence. Moreover, technology supports differentiated instruction by enabling teachers to tailor materials to learners' individual needs. Affective factors also play a crucial role in the results. Numerous studies emphasize that learners' willingness to speak is strongly influenced by their emotional comfort and the overall classroom atmosphere. When teachers create a supportive environment through positive reinforcement, constructive feedback, and encouragement, students are more likely to take risks and participate in oral activities. Conversely, negative experiences such as criticism or fear of failure often result in silence and reduced engagement. The analysis clearly shows that successful speaking development occurs in classrooms where learners feel respected, valued, and safe to experiment with language ^[11]. In addition, the findings indicate that structured lesson planning contributes significantly to improvements in speaking ability. Lessons that balance fluency-oriented activities with accuracy-focused tasks lead to more sustainable learning outcomes. Scaffolding techniques—such as pre-teaching vocabulary, providing useful expressions, and modelling dialogues—enable learners to perform more effectively during speaking tasks. The results demonstrate that step-by-step guidance enhances both fluency and accuracy, particularly for beginner and intermediate learners.

Finally, the overall analysis confirms that no single method can fully develop speaking skills on its own. The most effective outcomes are achieved when teachers integrate communicative tasks, collaborative learning, role-play, technology use, and supportive classroom management. The synergy of these elements creates a rich communicative environment in which learners encounter diverse speaking opportunities and gradually build competence. The findings therefore suggest that enhancing English speaking skills requires interactive, learner-centred, and well-structured pedagogical strategies. By implementing a range of complementary methods, teachers can significantly improve learners' fluency, confidence, motivation, and overall communicative ability, highlighting the importance of holistic approaches that address both linguistic development and emotional readiness to speak.

CONCLUSION

Enhancing English speaking skills in the classroom requires a multifaceted, learner-centered approach. The analysis demonstrates that communicative tasks, pair and group work, role-play, technology integration, and supportive teacher feedback each play a vital role in developing learners' oral competence. Communicative and task-based methods encourage the spontaneous use of language, while collaborative activities provide more speaking opportunities and reduce anxiety. Role-play and simulations enhance pragmatic awareness and confidence, and digital tools make learning engaging, flexible, and authentic. Furthermore, motivation and a positive classroom environment are critical factors influencing students' willingness to communicate. The findings suggest that no single method is sufficient on its own; rather, a combination of strategies tailored to learners' needs ensures the most effective results. Teachers are encouraged to design lessons that balance fluency and accuracy, scaffold tasks, provide meaningful feedback, and integrate technology appropriately. By implementing these holistic and interactive approaches, learners can develop the skills necessary for real-world communication, ultimately improving fluency, confidence, and overall language proficiency. Future research may focus on empirical testing of integrated methods in diverse educational contexts to further validate their effectiveness.
